Forecast For The United Kingdom
Issued by Met Office Exeter
at 1500 on Wednesday 28 Jul 2021

UK Outlook for Thursday 12 Aug 2021 to Thursday 26 Aug 2021:
As is typical for this time of year, confidence is low for this period. However, there is a tentative sign of more settled conditions developing with higher pressure becoming slightly more likely. This means drier conditions may become more prevalent, although there is still the risk of showers or thunderstorms at times. Temperatures likely to trend to above average, with an increasing chance of hotter spells developing as the month progresses.
